

Product Change Notification

PCN Number: 2009-113

Approval Status: Internally Approved

| GENERAL INFORMATION: | |
|--|---------------------------------|
| Customer(s): General | Date Entered: 01/22/2009 |
| PCN Description: 2651 Mechanical Change | |
| For Products: 2651A/E | Revision: A |

| DETAILED INFORMATION: | |
|--|--|
| Reason for Change: 2651A/E is built using ball lens cap and the 2651L is built with the mold len cap. These two different lens cap have different size. For low cost, the 2651L design is perfered to use for both products, 2651A/E and 2651L. | Description of Change: Change the 2651A/E ball len cap to molded len cap. By doing this, the body of the new 2651A/E is a little longer as described in the File Attachment. Also see DVT report in the File Attachment(s) |
| File Attachment(s):  M&D of 2651A-E old vs new.doc  2651L-A DVT Rpt.doc | Johnny Lim, Steven Velasquez, David Lew, Salvador Roque, Davinder Basuita, Harry Moore, Edward Yates |
