### PS-9012

18 W wall mount power supply for the OT-DTCR-1 & -2 desktop enclosures. 100-240 VAC 50/60 Hz operation. Includes regional power socket adapters.

### Desktop or Wall-Mount Enclosures

The Optiva Desk Top Card Racks (DTCR) are ruggedized aluminum-housing units that accept any Optiva insert card. The 1-slot (OT-DTCR-1) and 2-slot (OT-DTCR-2) enclosures both use an external PS-9012 wall-mount power supply and have a 2-pin Phoenix power connector option for more custom applications.

These enclosures are perfect for installations that are space constrained or do not require rackable equipment. Popular uses are remote video camera feeds, airport terminal signage, or simple point-to-point fiber links. A wide variety of Optiva cards have been developed for the platform to support both optical and daisy-chaining non-optical formats.
